Tour Name: Grand Voyage: Antarctica & South America to the Mediterranean

Tour Code: 106S

Days: 68

Day 1

Thu, 25 Feb

Buenos Aires, Argentina

Welcome to Buenos Aires, where you'll have an overnight hotel stay. Perhaps plan to spend some time in the city, nicknamed the 'Paris of South America'. Resplendent with Belle Epoque buildings, sidewalk cafes and green spaces, there's the fiery passion of Latin America - a collective love for football, flame-cooked meats (asado) and the tango.

Some of the highlights are La Boca, a colourful, creative mecca with a must-do art walk, and San Telmo, a former aristocratic neighbourhood that was abandoned during a 19th-century epidemic. Mansions were turned into conventillos (shared housing), boutique hotels, antique shops, and tango clubs, exuding a captivating bohemian vibe.

Day 2

Fri, 26 Feb

Buenos Aires > Ushuaia (B,D)

Fly from Buenos Aires to Ushuaia, the main island of Tierra del Fuego and the southernmost city in the world. The Captain and crew will warmly greet you as you board your ultra-luxury Discovery Yacht, Scenic Eclipse. Toast the start of your once-in-a-lifetime expedition as you depart South America and cruise through the calm and scenic Beagle Channel, named so for the ship that carried Charles Darwin on his five-year discovery journey. Admire the dramatic views of the Andean mountains from the comfort of your private verandah or from the Observation Deck with its commanding view of the bow.

Day 3

Sat, 27 Feb

At sea (B,L,D)

Wake up in your own time as we cruise across the Drake Passage, the infamous waterway that connects South America to Antarctica. Perhaps ask your butler for breakfast to be delivered to your spacious suite or meet fellow guests in the Yacht Club.

Today, join an introductory presentation about your polar expedition by the Polar Discovery Team in the state-of-the-art theatre. Feel the excitement building as they explain how your Zodiac and other Discovery Excursions will work in the coming days. The theatre is where you can watch talks, lectures, movies and documentaries during the day. At night, enjoy world-class productions from musical theatre and cabaret to pop music, dance and fun interactive game shows.

Day 4
Sun, 28 Feb

At sea (B,L,D)

Today you will enter Antarctic waters, an unpredictable but stunningly beautiful environment that always surprises. Put on your complimentary polar parka and head to the Observation Deck to spot icebergs for the first time – it's a feeling that will stay with you forever.

Watch out for whale blows in the distance and your expert polar Discovery team will be on hand to provide and answer any insightful information. Comprised of up to 20 members, this team of geologists, historians, ornithologists, marine biologists, and glaciologists is at the heart of your Antarctic Voyage.

Day 5
Mon, 01 Mar

Antarctica (B,L,D)

Slide open the floor-to-ceiling doors of your verandah suite to see icebergs sculpted by nature and glacial mountains rising thousands of metres from the ocean. Antarctica is a birdwatcher's paradise, with more than 40 different species, so keep your eyes peeled for wandering albatrosses, which have the largest wingspan of any flying bird, as well as shearwaters, giant petrels and more.

Due to the extraordinary nature of the region, excursions throughout your Expedition Voyage are dependent on the ice and weather conditions. Your experienced Captain and specialist Discovery Team, who have made countless journeys to Antarctica, will use their expertise to design your voyage from day to day, making the most of 18–20 hours of daylight.

Discovery: Daily experiences may include cruising on Zodiacs, stepping ashore to view vast penguin rookeries or historic huts, and kayaking or paddle boarding around icebergs. Wherever your voyage takes you, you will have countless "pinch me" moments.

Day 6
Tue, 02 Mar

Antarctica (B,L,D)

Portal Point^{^^} – a former British refuge hut – may be a potential landing site during your voyage.

Or you may visit Deception Island^{^^} as part of your itinerary. Nestled in the South Shetland Islands archipelago, it is one of the only places in the world that ships can sail directly into the centre of a submerged caldera of an active volcano. With her world-class design and state-of-the-art technology, Scenic Eclipse can sail through a rocky gap into the horseshoe-shaped harbour. The island is also home to a few small scientific outposts and hundreds of thousands of chinstrap penguins.

Tonight could be the night you enjoy Sushi[^] @ Koko's with your new friends. Stay up late in the bar or retire to the library for a moment of blissful solitude before bed.

Day 7
Wed, 03 Mar

Antarctica (B,L,D)

Various species of penguins can be found in Antarctic and the sub-Antarctic region, with around 12 million penguins living on the Peninsula, including Adélie, Chinstrap, Gentoo, and the very rare Emperor penguins. Guided by the expert Polar Discovery Team, you'll witness colonies up close; hear their mighty calls and watch as they clumsily waddle along and interact with each other.

Whales are another majestic creature you may encounter, whether a minke, a humpback or an Orca. Watch them from the comfort of your ultra-luxury Discovery Yacht, in a Zodiac with an experienced Polar Discovery Team member, or from their level in a kayak or stand-up paddleboard – a breathtaking experience.

Discovery: When enjoying daily Scenic Discovery excursions, ask for your expert Discovery Leader for photography tips and guidance on how to spot the wildlife around you. They will help you immortalise these incredible moments while cruising on the Zodiacs, kayaking and stand-up paddleboarding around impressive ice formations.

Day 8
Thu, 04 Mar

Antarctica (B,L,D)

Lemaire Channel^{^^}, renowned for its picturesque views and often referred to as 'Kodak Alley', could be our next exciting destination. If during your voyage the Scenic Eclipse weaves through this channel, make sure you set your alarm and embrace the cool air from the Observation Terrace. Pass through the 11-kilometre-long channel, just 700 metres wide at its narrowest point, and be amazed at the dramatic rocky mountains and glowing blue icebergs so close to the ship.
